Maximizing Baler Performance

To the casual observer, a baler seems like a pretty simple device. Material goes in one end, and bales come out the other end. In reality, a baler is a sophisticated collection of electrical, hydraulic and mechanical systems working in harmony to optimize productivity. [Learn More>](#)

New Study Shows Recycling Industry Continues to be a Powerful Force in U.S. Economy

Recycling continues to power the American economy based on a new study conducted by John Dunham and Associates and released by the Institute of Scrap Recycling Industries (ISRI). In addition to its positive environmental benefits, the recycling industry is responsible for more than 531,500 jobs...

Fall Protection Again Tops OSHA's 'Top 10' List of Most Frequently Cited Violations

General Requirements is OSHA's most frequently cited standard, the agency and Safety+Health announced at the National Safety Council 2019 Congress & Expo. The rest of the preliminary list of OSHA's Top 10 violations for fiscal year 2019 also remained largely unchanged from FY 2018, with only one minor adjustment. [Learn More>](#)

California's Stalled Plastics Plan Will Come Back. Here's What it Could Mean.

California's plan to put steep recycling requirements on single-use packaging had backers that included influential lawmakers like the majority leader of the state Assembly, who vowed Sept. 14, the day the bill stalled, to bring it up again next year.

A Look at Investing in ADC

Today, considering the advances in landfill solutions that are available in the industry, there should be no reason why many of the sites nationwide should not use some type of alternative daily cover (ADC) rather than moving or importing fill.

With Cost of Recycling on the Rise, Olympia, WA Plans to Stop Curbside Collection of Glass

Olympia, which runs its own garbage and recycling hauling service, wants to stop accepting glass in curbside recycling bins. Instead, residents would need to drop off glass at the city's collection site off Eastside Street Southeast or at a yet-to-be-determined site on the west side. [Learn More>](#)

Where's the Waste? A 'Circular' Food Economy Could Combat Climate Change

Bubbly Dynamics, the organization that nine years ago converted a former meatpacking facility into a hub for local food businesses, said that, once completed, this "mechanical

stomach” would turn organic waste into compost, biogas and a nutrient-rich liquid in which to grow algae. [Learn More>](#)

PLASTICS Welcomes New Board Chair

The Plastics Industry Association (PLASTICS) has elected Phillip E. Wilson, as board chair. In this role, Wilson will lead the 2020 PLASTICS Officers in furthering the commitment of PLASTICS to serve the entire plastics industry supply chain.
