BROUGHT TO YOU BY — Chevron

Does your new oil meet the third spec?

Typical new oils for equipment meet OEM specs for performance and viscosity—but not cleanliness. Find out how little it takes to contaminate clean oil, and how much of an impact it can have on productivity and component life. **Find out now.**

EPA moves on implementing landfill emissions rule, still hopes for delay

Per a court order, the agency took multiple steps this month toward implementing an Obama emissions reduction plan. At the same time, it's seeking new relief from a California judge.

UC San Diego launches study on recycling EV batteries into energy storage

The university partnered with manufacturer and energy company Cummins on a potential solution for the scarcity of foreign critical materials in batteries.

What's next for California container recycling after rePlanet's closure?

Losing the state's largest recycling center operator in one fell swoop could challenge California's redemption program. Supporters and critics alike offer ideas for stabilization.

UPDATED

FCC Environmental wins Omaha, Nebraska contracts, securing Midwest foothold

After months of debate, the Omaha City Council approved a 10-year collection contract as well as a separate deal for seasonal yard waste pick-up. The contracts are worth an estimated \$24.2 million per year.
