Self-Government (AIIILSG)

United Cities and Local Governments
Asia-Pacific (UCLG ASPAC)

Smart Cities - Aspirations and Challenges UCLG ASPAC Executive Bureau Meeting

May 6-7, 2016, The Ashok, New Delhi

About Us

All India Institute of Local Self-Government (AIILSG)

AIILSG is a premier institute working towards strengthening and reinforcing Urban Local Governance. For nearly nine decades it has contributed to the principles and practice of urban governance, education, research and capacity building. In all that AIILSG has done, it has taken care to work with a full range of stakeholders - grassroots organizations, NGOs, ULBs, state and national governments, international organizations, organizations of the UN, research organizations and universities. Among international agencies, it has been working closely with World Bank, UNICEF, UNDP, UN-HABITAT, USAID, UNESCO, DFID, GIZ, CITYNET and others in carrying out various training and developmental programmes for enhanced urban development and management.

United Cities and Local Governments Asia-Pacific (UCLG ASPAC)

The regional section of UCLG is based in Jakarta, Indonesia. The organisation is the key knowledge management hub on local government issues in the region. UCLG is a worldwide association of local government organisations that dates back to 1913. UCLG is the only local government organization recognised by the United Nations, and nominates 10 out of 20 members of UNACLA, the first advisory body of local authorities affiliated with the UN. The Asia and Pacific region is the biggest of the eight sections in UCLG with linkages to more than 7,000 local governments. It represents well over 3.76 billion people - more than half of the world population - and incorporates economically fast developing countries such as China, India and Indonesia.

The 3rd South Asian Cities Summit 2016

Development of smart cities in South Asia comes with a plethora of new demands and consequent economic activities, such as development of novel public transport systems, physical infrastructure, IT infrastructure, waste management, water management and affordable housing. India and other South Asian countries can better utilize opportunities that urbanization provides them to transform their economies to join the ranks of richer nations.

The launch of three mega urban schemes in India, i.e., Smart Cities Mission, Atal Mission for Rejuvenation and Urban Transformation (AMRUT), and Housing for All in urban areas, will set in motion the process of urban transformation to enable better living. The missions are new, innovative and focused on pressing needs to improve the quality of life for citizens today, and in the future.

Realizing this potential and with a holistic view of providing sustainable solutions for cities, All India Institute of Local Self-Government (AIILSG), and United Cities and Local Governments Asia Pacific (UCLG) along with other national and International organizations announces the 3rd South Asian Cities (SAC) Summit 2016 on Smart Cities - Aspirations and Challenges. The Summit will convene a high profile gathering of national, international, state and local government officials, utilities, policy makers, financiers, technologists, non-profit organizations, business leaders, academicians, researchers and community organizations - all with a common goal of working together to develop and build a better future for cities and their citizens.

Highlights

- ✦ UCLG-ASPAC Executive Bureau Meeting
- ✦ Knowledge and business exchange session
- ✦ Smart city national / international expert speakers
- ✦ 100+ City Mayors, Commissioners and other senior city representatives
- ✦ Share the platform with national and international mayors & commissioners
- ✦ Debate and discuss a potential roadmap for smart cities in India and for cities in South Asia
- ✦ South Asian Mayors Forum - explore the huge potential of South Asian cities and learn from similar urban issues and experiences
- ✦ Engage in thought leadership and influence key stakeholders and decision makers across the public and private sectors
- ✦ Digital India - Discussing the Initiative
